

Workspot Add-On Services

Last Updated: July 6, 2020

Workspot Add-On Services provide additional features and/or capabilities for Workspot Cloud Services, with subscriptions made available (depending upon the Utilized IaaS) under an Order for an additional Fee. The Subscription Term for Workspot Add-On Services run concurrent with the Subscription Term for Workspot Cloud Services. Workspot Add-On Services are governed by and subject to the Workspot Cloud Subscription Agreement ("Agreement"). Capitalized terms in this document have the meanings ascribed in the Agreement.

Workspot Add-On Services currently include:

1. Workspot Cloud Disaster Recovery Service. For a description of the Workspot Cloud Disaster Recovery Service, please see <https://www.workspot.com/legal/cloud-disaster-recovery>. Note that this Workspot Add-On Service is currently only available where Microsoft Azure is the Utilized IaaS.
2. Workspot Cloud Backup Service. For a description of the Workspot Backup Service, please see <https://www.workspot.com/legal/cloudbackup>. Note that this Workspot Add-On Service is currently only available where Microsoft Azure is the Utilized IaaS.

Workspot reserves the right to change without notice the listings and availability of Workspot Add-On Services.
